

ELEVATED CAUSES

Empowering Colorado

Delta Dental of Colorado is a **socially responsible nonprofit dental benefits organization**. For more than 60 years, we've played an important role in making the connection between oral and overall health. As the state's leading dental benefits company and the only one based in Colorado, we are committed to our community. Our team members provide world-class customer service to and administer dental benefits for more than 1.3 million members.

We prioritize causes connected to **our mission: improving the oral health of the communities we serve**. Our vision, a healthy smile for all, inspires us to do things that lift people up. We embrace the spirit of the West, finding new paths and rising up to a challenge.

Transforming our community begins with our team members. We empower our team to be collaborative, innovative, and drive solutions that build a brighter future. Every day, we strive to make Colorado a better place by serving our members, connecting our providers, and contributing to our state economy.

By weaving our mission-building activities into our business priorities, **we aim to do what's right and work toward a healthier Colorado**. Through our Elevated Causes strategy, we focus our efforts in three ways:

Pathfinders: Team members are encouraged to seek out causes that help us identify and pursue mission-related ways of giving back to our community. This program provides volunteer and team-building opportunities. Through customized experiences, our team members choose how best to share their time and talents with local nonprofits.

Peak Leadership: By representing Delta Dental of Colorado through service on a local nonprofit board, team members can help strengthen connections between oral health and local businesses and organizations. Our Peak Leadership program provides training, resources, and placement assistance with Colorado nonprofits. Proven leaders in the company have access to a placement program that aligns their passions with Colorado nonprofits so they can contribute their professional skills as a board member.

Visionary Partners: We believe that 1+1=3. Combining our efforts with other community partners is key to elevating issues and finding new solutions. Our Visionary Partners program provides sponsorship funding to support organizations and innovations across the state. By calling attention to the importance of oral and overall health, we can drive change throughout Colorado.
